

Station Name

- ☐ Station A - River Intake
- ☐ Station B - Reservoir
- ☐ Station C - Treatment Plant Out...
- ☐ Station D - Distribution Main
- ☐ Station E - Consumer Tap

Date

1/1/2023

12/31/2024

Region

- ☐ Central
- ☐ East
- ☐ North
- ☐ South
- ☐ West

WATER QUALITY TEST RESULTS BETWEEN 2023 - 2024

|                                  |                                 |                                |                              |
|----------------------------------|---------------------------------|--------------------------------|------------------------------|
| 300<br>Water Samples             | 5<br>Stations                   | 7.44<br>Average pH             | 207.06<br>Average Hardness   |

POTABLE SAMPLES PER STATION

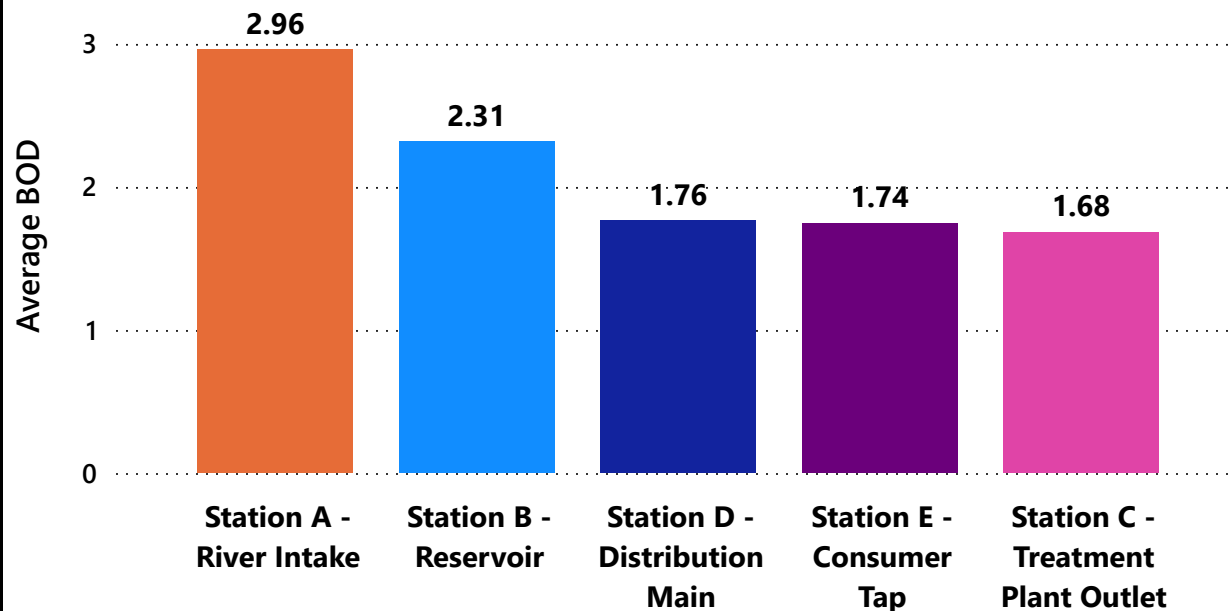

YES = Potable, NO = Not Potable

| Station Name                       | N/A (Raw Source) | NO  | YES | Total |
|------------------------------------|------------------|-----|-----|-------|
| Station E - Consumer Tap           |                  | 60  | 5   | 65    |
| Station C - Treatment Plant Outlet |                  | 53  | 8   | 61    |
| Station D - Distribution Main      |                  | 54  | 7   | 61    |
| Station B - Reservoir              | 57               |     |     | 57    |
| Station A - River Intake           | 56               |     |     | 56    |
| Total                              | 113              | 167 | 20  | 300   |

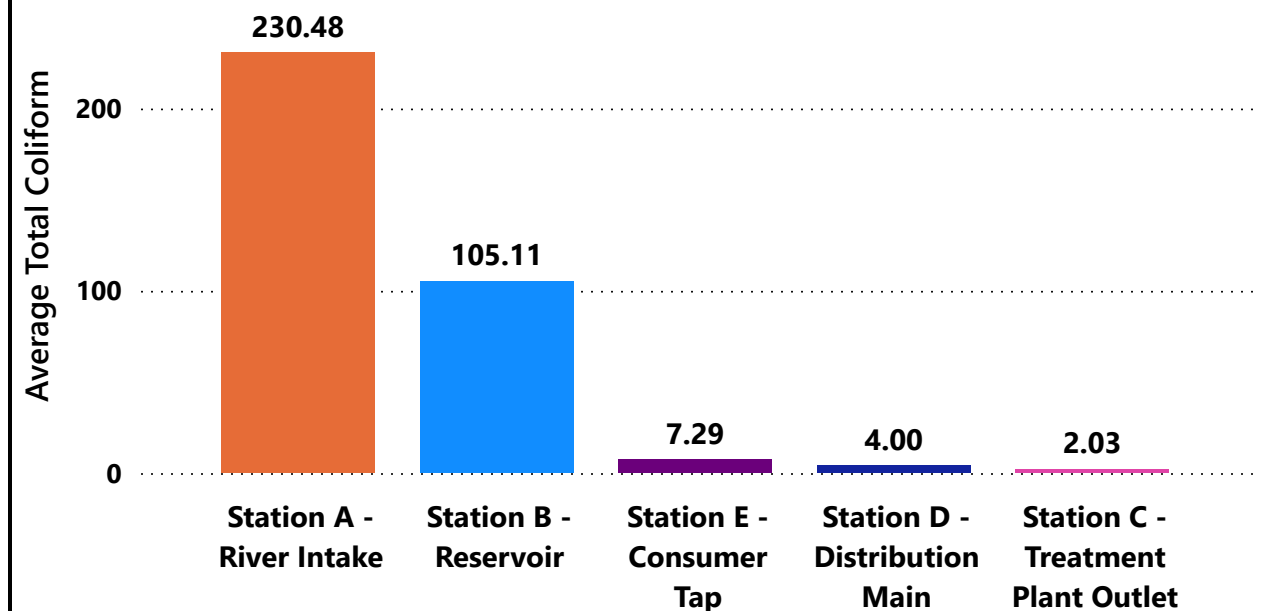

WHO COLIFORM PASSED SAMPLES

| Station Name                       | FAIL | PASS | Total |
|------------------------------------|------|------|-------|
| Station E - Consumer Tap           | 60   | 5    | 65    |
| Station C - Treatment Plant Outlet | 53   | 8    | 61    |
| Station D - Distribution Main      | 54   | 7    | 61    |
| Station B - Reservoir              | 57   |      | 57    |
| Station A - River Intake           | 56   |      | 56    |
| Total                              | 280  | 20   | 300   |

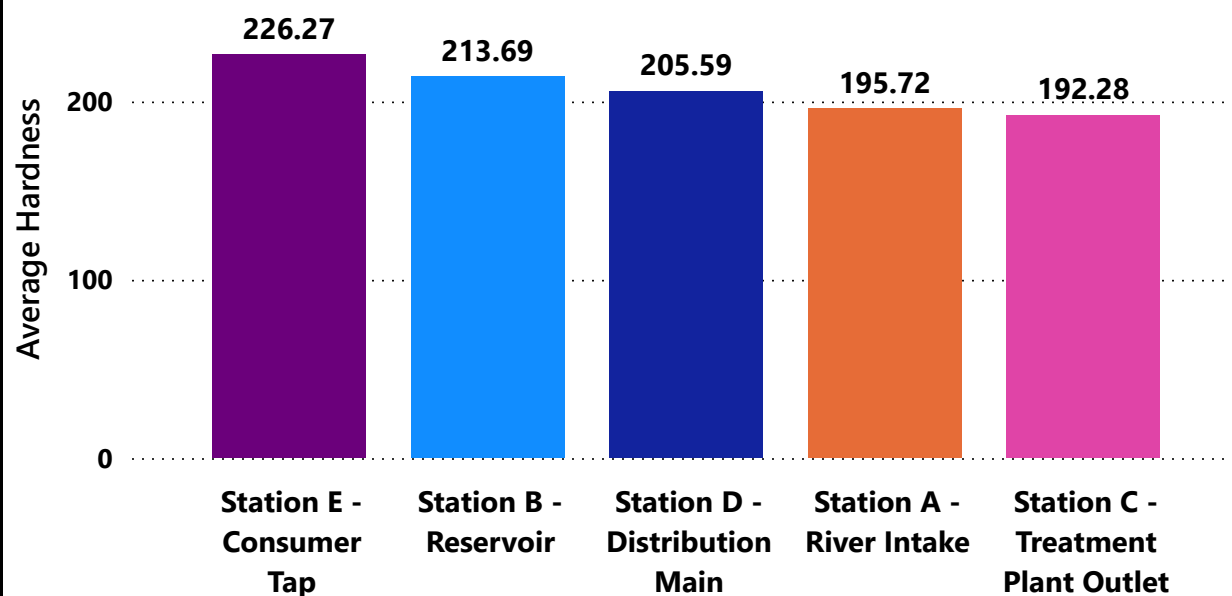

**AVERAGE BOD PER STATION**

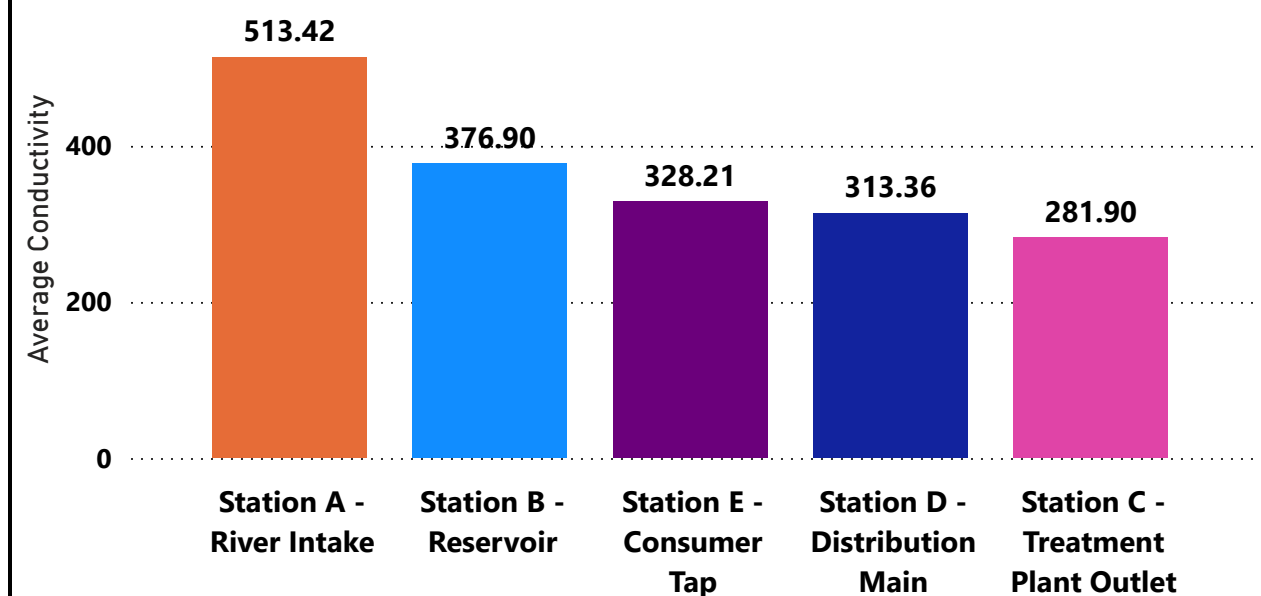

**AVERAGE TOTAL COLIFORM PER STATION**

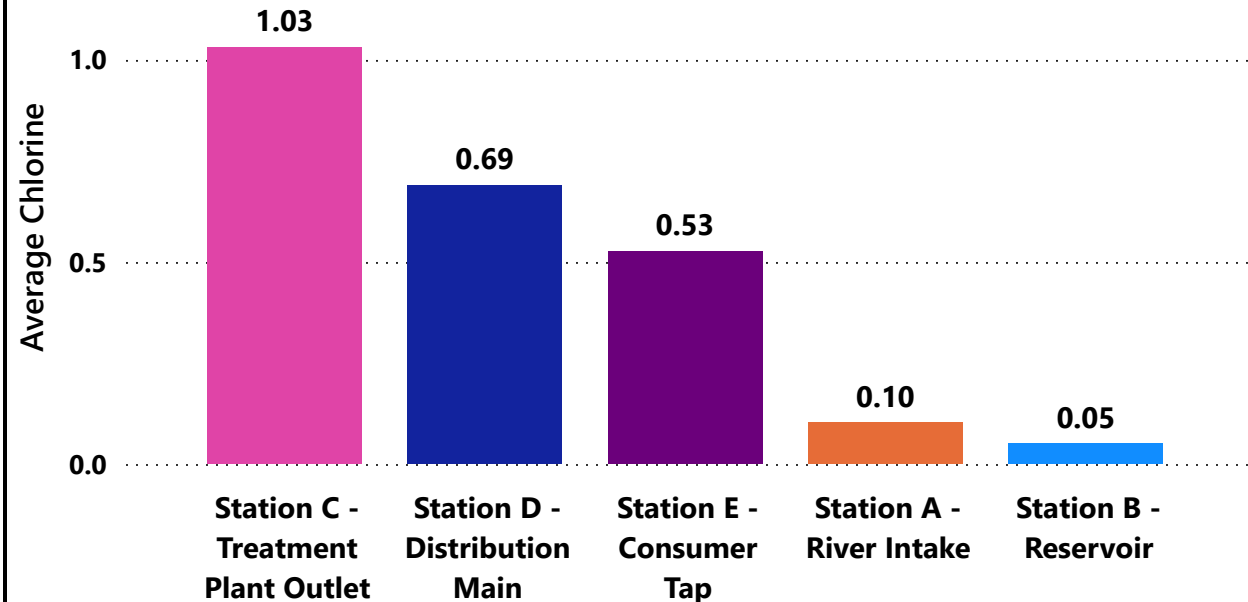

**AVERAGE HARDNESS PER STATION**

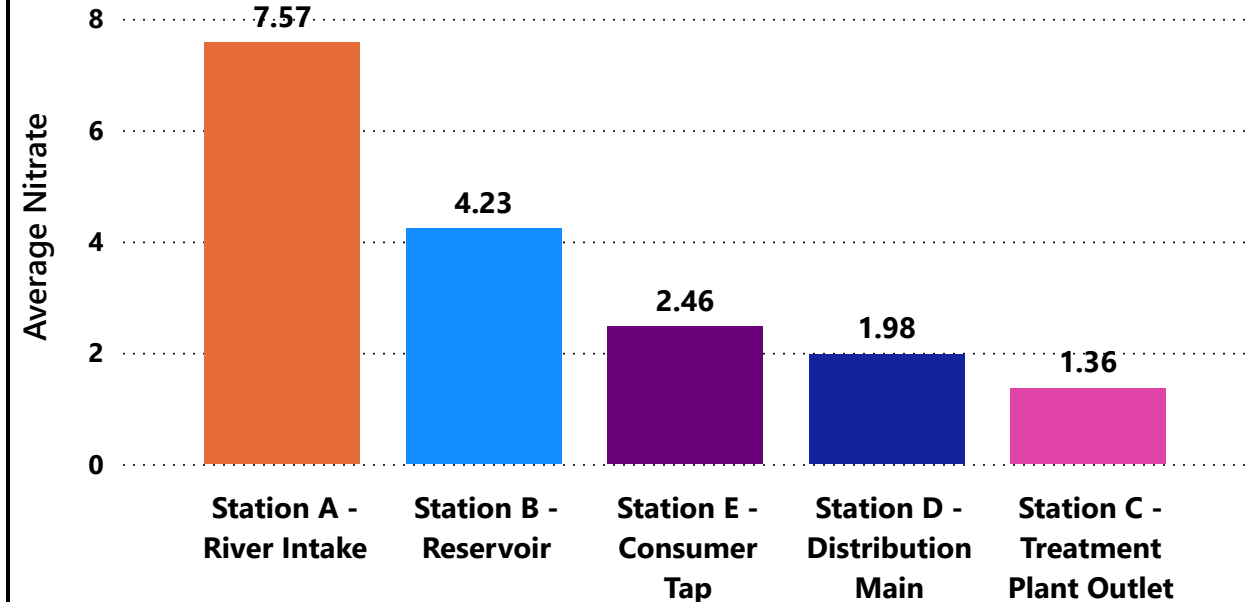

**AVERAGE CONDUCTIVITY PER STATION**

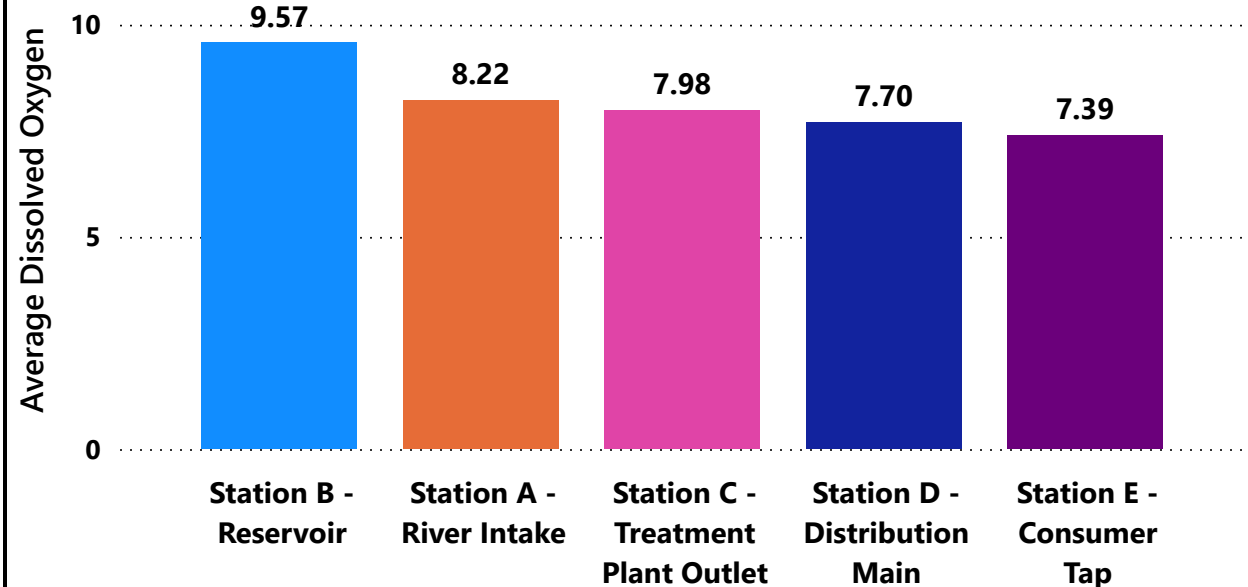

**AVERAGE CHLORINE PER STATION**

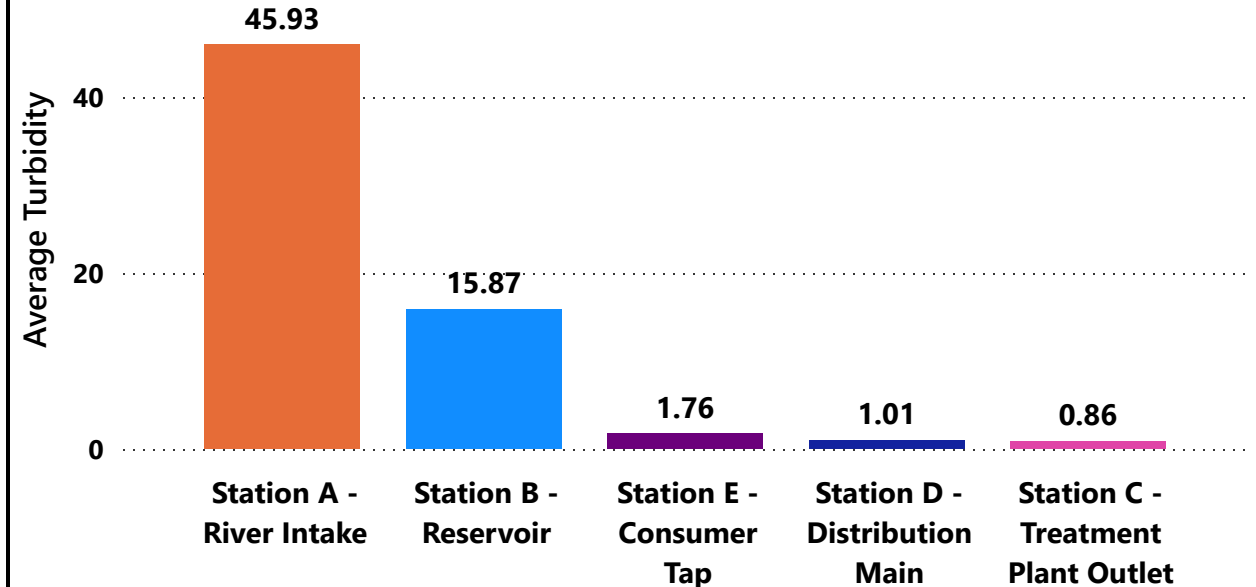

**AVERAGE NITRATE PER STATION**

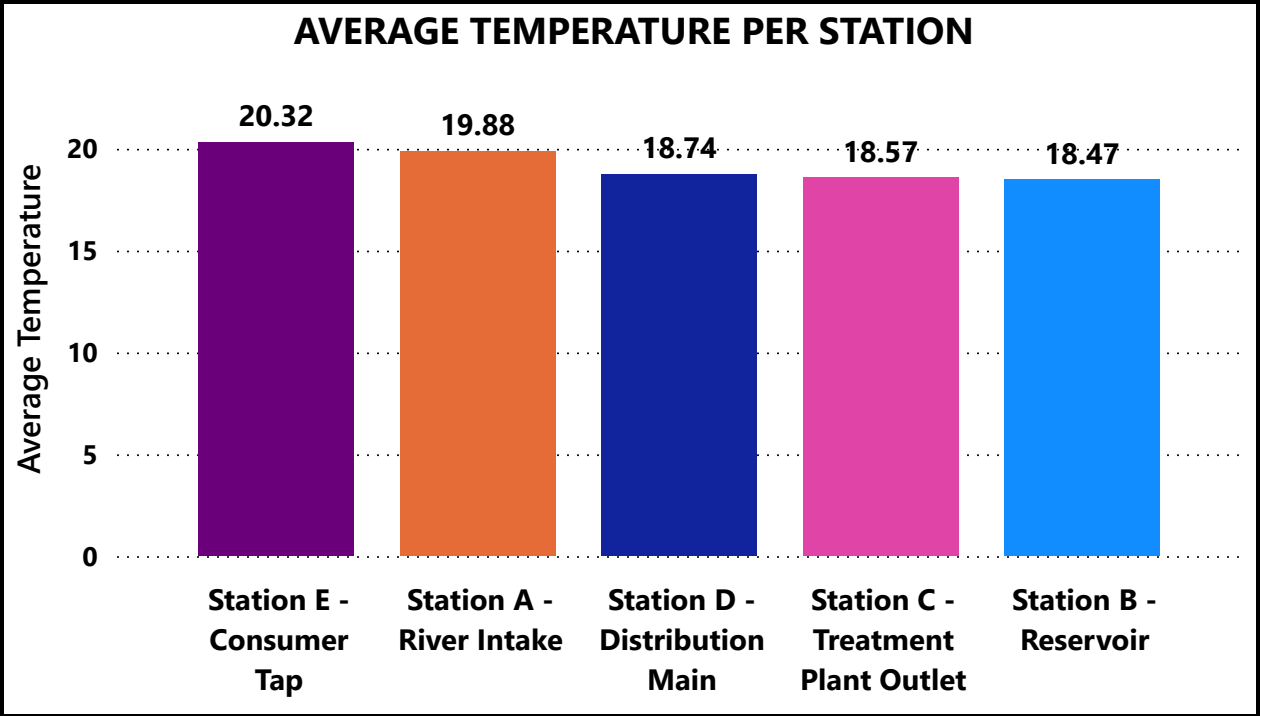

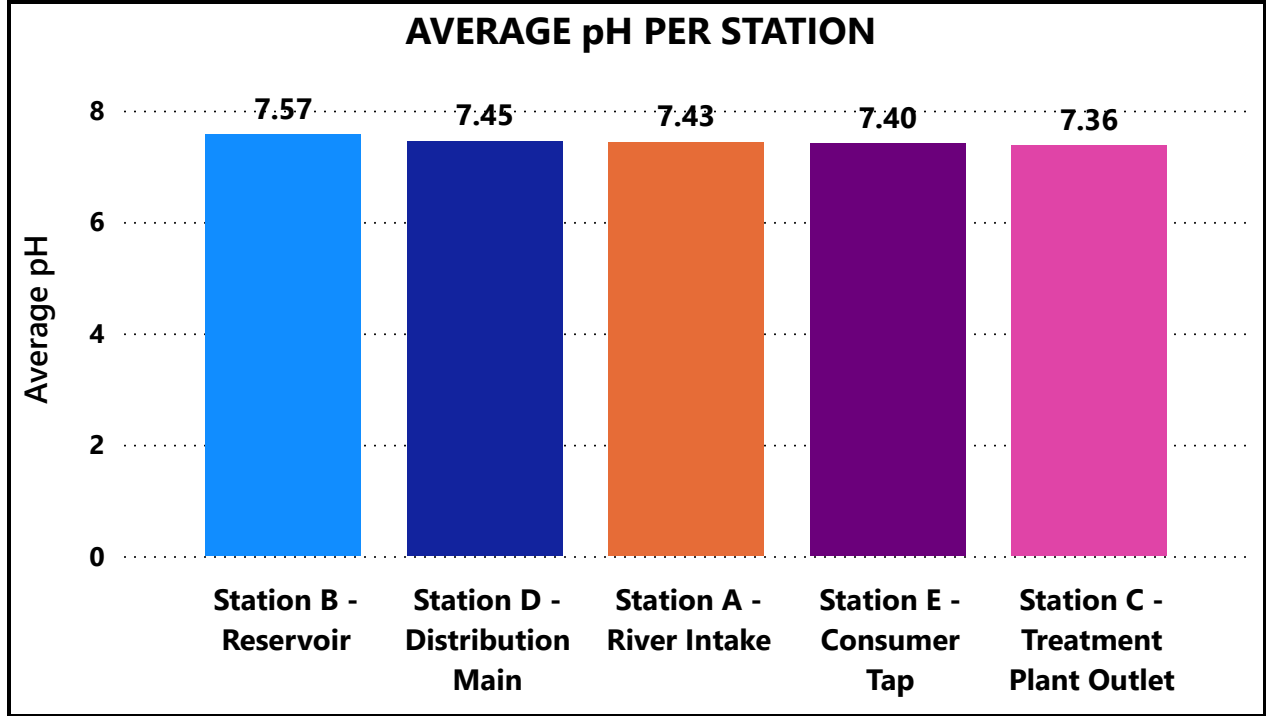

**AVERAGE DISSOLVED OXYGEN PER STATION**

**AVERAGE TURBIDITY PER STATION**

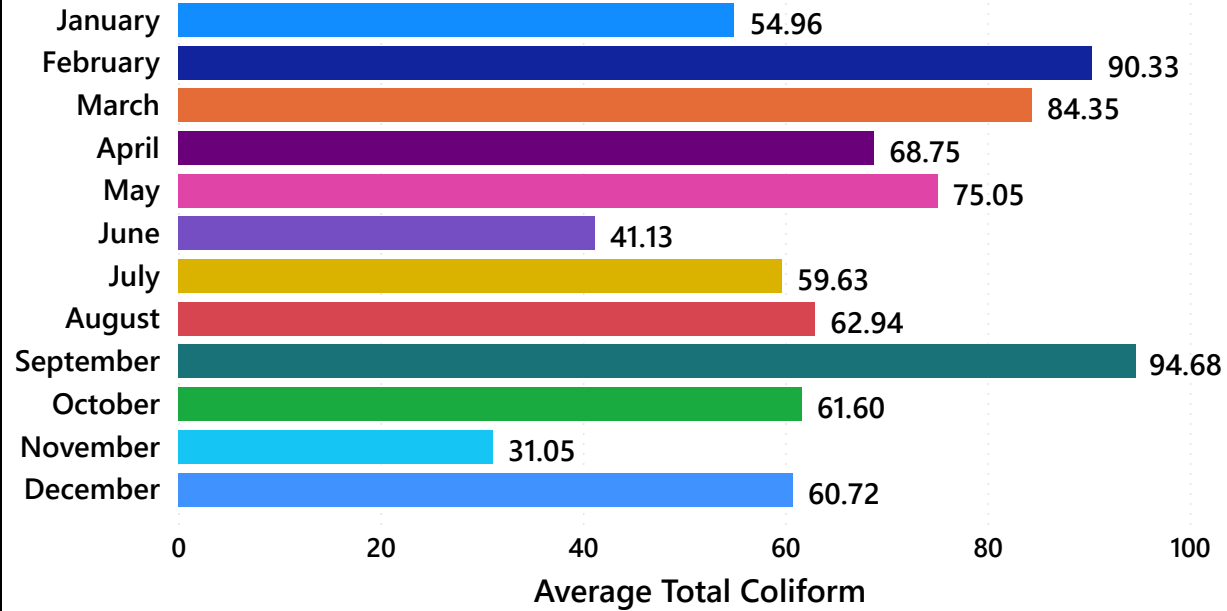

| WHO NITRATE PASSED SAMPLES         |      |      |       |
|------------------------------------|------|------|-------|
| Station Name                       | FAIL | PASS | Total |
| Station A - River Intake           | 17   | 39   | 56    |
| Station B - Reservoir              |      | 57   | 57    |
| Station C - Treatment Plant Outlet |      | 61   | 61    |
| Station D - Distribution Main      |      | 61   | 61    |
| Station E - Consumer Tap           |      | 65   | 65    |
| Total                              | 17   | 283  | 300   |

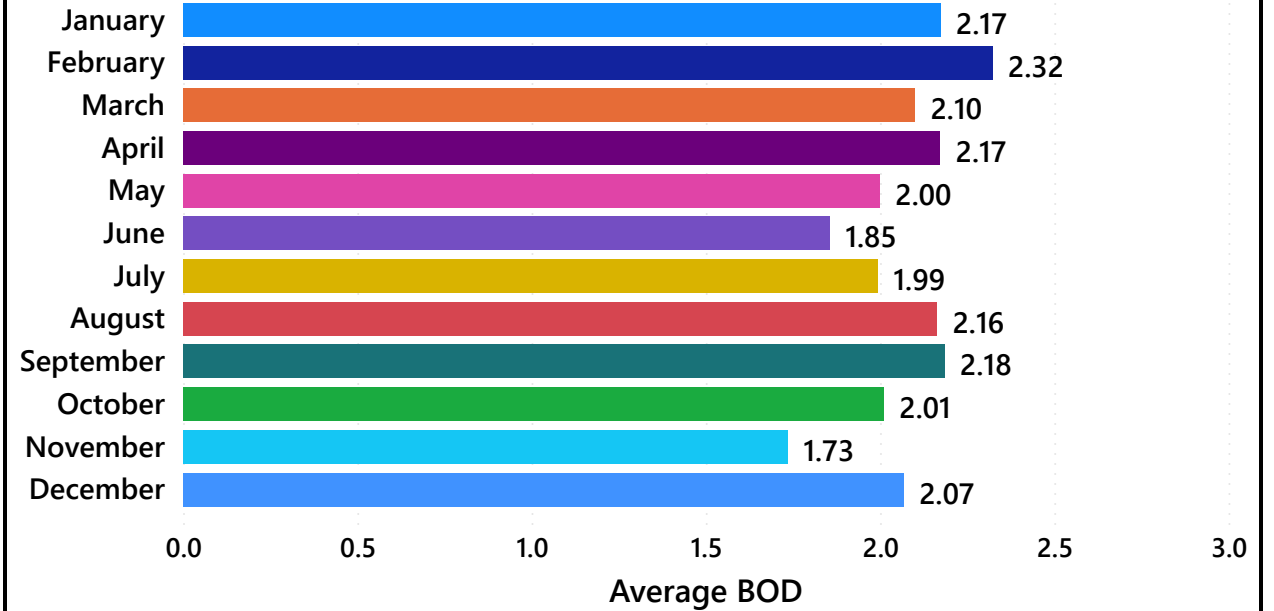

| WHO TURBIDITY PASSED SAMPLES       |      |      |       |
|------------------------------------|------|------|-------|
| Station Name                       | FAIL | PASS | Total |
| Station A - River Intake           | 56   |      | 56    |
| Station B - Reservoir              | 56   | 1    | 57    |
| Station C - Treatment Plant Outlet |      | 61   | 61    |
| Station D - Distribution Main      |      | 61   | 61    |
| Station E - Consumer Tap           |      | 65   | 65    |
| Total                              | 112  | 188  | 300   |

| WHO pH PASSED SAMPLES              |      |       |
|------------------------------------|------|-------|
| Station Name                       | PASS | Total |
| Station A - River Intake           | 56   | 56    |
| Station B - Reservoir              | 57   | 57    |
| Station C - Treatment Plant Outlet | 61   | 61    |
| Station D - Distribution Main      | 61   | 61    |
| Station E - Consumer Tap           | 65   | 65    |
| Total                              | 300  | 300   |
